The February meeting of the Mount Airy Clay Breakers was held at the Concordia Lutheran Church.

Our Vice President Marion introduced the Taylors to our club at 7:30 P.M. The program was entitled "colors" and it began with Mrs. Taylor giving a reading from Robert Louis Stephenson's ~~letter to a paperhanger~~. She explained about lights "warm white flourescent - for bathrooms, cool white - used in kitchens, and warm incandescent (a reddish-yellow light) - used in living rooms. Colors that are all the same appear drastically different under different lighting.
