

November 1977

The Nov. meeting was held at Ann Clarkson's home. The meeting was brought to order by Pres. Tommy Sellers who used the new gavel which was presented to the club by Ann Clarkson.

The minutes of the previous meeting were read & approved, the treasurer's report given & roll was taken. The treasurer asked those who have not paid their \$5.00 annual dues to please do so.

Chairman of the Surratt House Crafts Days Sale Marie White gave her report on the sale. And a basket of pot pourri was passed for each of us to take as a reward for the work done in preparation for the sale. Since the sale was such a big success, we've been asked to participate again in the Spring. It was suggested we send a group order into Parks for seedlings to get started on herbs needed for the Spring sale.

Since we were late getting the Christmas decorating contest put together a motion was made & seconded that we postpone the contest until next year.

Our beautification project was discussed & several locations such as Dangerfield & Old Alex Ferry Rd. or Hollaway park were mentioned & we decided to make the decision in the Springtime when the work would be started.

In case of bad weather the decision to

will be made by our President to Postpone the meeting until the following Thursday evening. Members are asked to call & advise Tommy S. if they hear anything.

The tour at Dr. Ferrells on Dec 1, will take the place of the Dec. meeting.

Joyce Meyers talked about the Greens Show Nov. 29-Dec 4 from 9AM To 5PM. at the Great Hall at the Botanical Gardens on Maryland Ave.

Janine Rosenfeld will have the Jan. meeting 7:30 at her home.

The hilltop garden club will decorate for the candle light tour at the Surratt House on Dec. 19 & 20.

Marie White will call to clear up what percent we owe the Surratt House for the Consignment sale.

Ann Clarkson suggested we have a Christmas party & exchange gifts not to exceed \$3.00.

Ann Volunteered her home Dec 10, at 1 o'clock

The meeting was adjourned & refreshments were served followed by an interesting demonstration on plant propagation given by Peggy Martin.
